Abdul Rehman

HSE Officer | OSHA 30-Hour, IOSH & BOSH Certified | Risk Assessment (HIRA/JSA) | Permit to Work (PTW) Systems | Field Experience in Oil & Gas | Open to Safety Officer Roles
Faisalabad, Punjab, Pakistan

Summary

OSHA 30-Hour | IOSH | BOSH Certified HSE ProfessionalI'm an HSE professional building a career around one goal: making job sites safer through disciplined, proactive safety practice — not just paperwork compliance.My training has given me a solid foundation in:Hazard Identification & Risk Assessment (HIRA/JSA)Permit to Work (PTW) SystemsFire Safety & Emergency ResponseConfined Space & Hole Watcher ProtocolsIncident Reporting & Safety DocumentationToolbox Talks & Safety InductionsPPE Compliance & Site InspectionsI gained my first hands-on exposure to this field during my time with Pakistan Petroleum Limited (PPL), where I supported field-level risk assessments, delivered safety briefings to site personnel, and monitored Permit to Work procedures across active job sites in a live oil & gas environment.I'm currently OSHA 30-Hour, IOSH, and BOSH certified, and actively building toward further internationally recognized HSE qualifications as I grow in this field.My goal is straightforward: contribute to a zero-incident workplace culture by applying what I've learned in a real, field-based safety role, and keep learning as I go. Based in Faisalabad, Pakistan, open to opportunities across Pakistan and the Gulf region. Let's connect if you're hiring, mentoring, or building a network of safety professionals committed to getting this right.

Experience

Pakistan Petroleum Limited (PPL)
Trainee
November 2025 - July 2026 (9 months)

Conducted on-site risk assessments across field operations to identify hazards and recommend corrective actions, supporting incident-free operations. Delivered safety awareness briefings and toolbox talks to field personnel, reinforcing compliance with company HSE standards. Supported

implementation and monitoring of Permit to Work (PTW) procedures across active job sites, ensuring adherence to safety protocols before work authorization. Gained hands-on exposure to HSE practices within a live oil & gas field environment, working alongside experienced safety officers.

Education

Riphah International University

Associate's Degree
